**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Irvine III on September 19, 2008.

The application has been amended as follows:

Claim 1, line 2 "EV-DO", has been replaced with --Evolution-Data Only (EV-DO)--

Claim 1, line 3 "SF block", has been replaced with --Selective Function block (SF block)--

Claim 1, line 6 "OHM", has been replaced with --Overhead Manager (OHM)--

The specification has been amended as follows:

Page 1, line 2, "SF block", has been replaced with --Selective Function block (SF block)--

Page 2, line 9, "OHM", has been replaced with --Overhead Manager (OHM)--

***Allowable Subject Matter***

2. Claim 1 is allowed.

The following is an examiner's statement for reasons for allowance:

3. Claim 1 is allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose modifying an OHM database when the setup is accepted; at the SF block, calling an ATM path extraction function and an ATM path establishing function based on channel card information when taskSpawn SFBlock is executed at the OHM block after the database is modified; and at the OHM block, transmitting a response to the request for the ATM switch block setup when the ATM path extraction function and the ATM path establishing function are called in combination with other limitations set forth in the respective claim. It is noted that the closes prior art, Lee et al. (U.S. Patent No. 7,266,130 B2) shows an Asynchronous Transfer Mode scheme within a 1xEV-DO environment where a communication channel is managed between a Base Station Controller and a Base Transceiver Station. However Lee et al. fails to disclose or render obvious the above underlined limitations as claimed.
